Art Unit: 2615

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-40 and 49-55, drawn to a video system, classified in class 348, subclass 211.99.
- II. Claims 41-48, drawn to a video system including a designating circuit, classified in class 348, subclass 211.4.
- III. Claims 56-61, drawn to an image pickup control apparatus, classified in class 348, subclass 333.02.
- IV. Claims 62-64, drawn to an image pickup control apparatus including an exposure control device, classified in class 348, subclass 362.
- V. Claims 65-69, drawn to an image pickup control apparatus, classified in class 348, subclass 223.1.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions of Groups I, II, III, IV and V are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention of Group I, II, III, IV or V has

Art Unit: 2615

separate utility such as a control device controlling a specific function of a video camera system. See MPEP § 806.05(d).

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

4. Because these inventions are distinct for the reasons given above and the search required for Group I, II, III, IV or V is not required for Group I, II, III, IV or V, restriction for examination purposes as indicated is proper.

5. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request
